Subject: Mine Plan Determination - Savage Coal Terminal

Attached is OSM's final decision regarding the need for a Mining Plan Modification for the above subject. A signed copy will be sent to you in today's mail.

In accordance with the Federal regulations under 30 CFR 740.13(d), other Federal agencies that may have an interest in, or jurisdiction over, the above subject operation have also been notified of OSM's decision electronically.

No responses to this transmittal are necessary.

RE: Savage Services Corporation "Savage Coal Terminal" - Application for a Permit Revision, Revised B.T.U. Resource Recovery, Task ID No. 2360

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) November 2, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Revised B.T.U. Resource Recovery, has determined that it proposes to increase the tonnage of refuse material to be removed from a refuse pile, and revise the method of cleaning the material prior to blending with coal product at the Savage Coal Terminal, Utah State permit C/007/022.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Revised B.T.U. Resource Recovery with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the November 2, 2005 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

Neither agency provided any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
